About This Game

The game is a FPS in 90's style. Built on Ray Casting technology, but it has a nice graphics, stylized as shooters of the same years. Has not complicated basis of gameplay; run, shoot and look for an outlet, but during these running you can admire the trenches and ruins of houses, as well as breathe in pure chlorine.

1914. The Entente is engaged in a bitter struggle with the German Empire. You play as a French soldier on the front line. The Germans really want to throw your battalion back and brutally attack your positions every day. One quiet night, the protagonist sensed something amiss... It turns out that the Kaisers surrounded and crushed your position, destroyed a large number of your brothers in arms and deprived of any hope of salvation.

This changed me. I thought an alternative for Legend of Grimrock 1 and 2.
Not really.

The worst part: you get damage, if you move around the enemy. I overlooked that fact, in other reviews, intentionally. I regret that. You have to stand still!

It is too much damage that you get to 'dodge' enemies and trying attack them from the side, behind or for the last option, escape. For me this is a key feature in this genre, so I can not recommend it.. Love this game. Not too hard to beat the game, a little challenging to get all the coins and utterly frustrating to get all the speed runs. It's perfect.. not good does not work. Not a really Jagged edge but still worth a try. The best timeline in NekoPara yet. JUST GET THIS.

need convincing? check my screenshot.. Enjoyable but with negative aspects, as well:

- + good art
 - + humor is ok to good, some of the sarcasm is really good
 - + old-style point&click as expected and fitting for a Larry Laffer game
 - + music
 - too short (8h)
 - last 2h (of 8) feel less polished
 - main story plot is weak while some of the side characters are quite good.
- . I got this module to cover me for 2.5 hours of game time and it just barely managed it.

Positives: It is pretty loosely designed and very easy to modify to meet your needs.

Negatives: It features a 175 foot pirate ship - that will sail out and engage the party's ship with a crew of 5. I know it is a fantasy product, but that doesn't mean that I am willing to completely discard reality.

. A harmless game, that can be weaponised when you decide to set challenges for yourself, then it becomes a frustrating game only equivalent to dark souls and the like in rage. This game must be awarded from sucking every last bit of fun out gaming.

And that's what makes it great.. I really liked this game. Its super fun. Great graphics and great controls and great gameplay.

First impressions

For the sale price i got this for its an absolute bargain.

This is a really well made wave shooter with a nice selection of environments, weapons and enemies. There's also a separate map for target practice and a drone wave survival map similar to SPT.

Graphics are nice with a few frame drops in some places and have had the occasional crash.

Overall for an early access game I'd definitely recommend it.. I happened to come across this game by random chance, and I have to say it is one of the best RPG games I have ever played. The story might not be a crazy over the top save the world kind of deal, it's slow in places and then it throws you into the deep end...I like this method because you bond and get to know the characters more this way it feels more personal. The characters are unique and funny in places (Sara is amazing) and you have just the right amount of side quests, not too many that you get lost along the way, and not too few that it just doesn't seem worth it.

My only real faults would be that the battle system does get a little bit repetitive after awhile and that in certain places the difficulty spike can be awful. But both those things can easily be overlooked, if you haven't played this yet I would highly recommend it.. daggerwav.wav has changed my life forever. This game is a work of art. It is one of the best games of our generation. I play this game professionally and am writing this review in hopes of bringing more new people to the scene!

10/10 A++ so hot I would fry an egg. Too many toxic teammates worse than matchmaking. Lag is Terrible
